

A construction worker wearing a black winter jacket, a black knit beanie, and grey work gloves is shown from the chest up, leaning over a dark, sloped roof. He is using a hammer on a wooden nail. The background is a blurred, snowy outdoor environment. The overall tone is professional and emphasizes durability and performance in cold weather.

PROFLEX® GLOVES: NO EXCUSES

EXCLUSIVE COOLING TECH + BREATHABILITY
+ TRUE FEEL + UNMATCHED GRIP

Too hot. Too bulky. No grip. Hey, we get it. But going commando ain't the way, baby. Before you go bare knuckle on the bit, consider 70% of hand injuries happen because gloves aren't worn. The other 30%? Wearing the wrong gloves for the job. Facts*.

ProFlex® Gloves have one crazy goal in mind: to get worn. Period. You might even find they help you do the job better. (We can dare to dream, can't we?)

PROFLEX®

OVERVIEW PROFLEX® COATED GLOVES

With ProFlex®, there's no excuse to go glove-less:

TOO HOT? Exclusive cut-resistant yarn with moisture-wicking and cooling fibers

TOO BULKY? True feel and "thread the needle" precision for nimble handling

NO GRIP? Leading-edge dip technologies that outperform the second best by a long shot
